QWEN 2.5 V2

mounting all folder

login to ssh
dir : Qwen-experiments

Qwen-Exp

docker run -gpus all --it <u><name></u> -v (dir)

(python most Nvidia img)

Screen

docker ps -a ⟶ Shows all contain, Closed ones als

docker ~~start~~ Qwen_Exp

```
docker exec -it Qwen-Exp /bin/bash
```

- Now this is a very back. barebone terminal hos
Aarted
where we have to enstall all the libraru
that we need.

- The python version has very small old version
need to upgrade it.
